

Mysteries of the Carpathian Mountains and Saxon citadels of Transylvania

8 days / 7 nights

Transylvania is a hilly area surrounded by the Carpathian Mountains that always knew how to protect its mysteries. Your trip will take you in this bastion loaded with history (where Romanians, Hungarians and Saxons live together) on the route of the Saxon citadels, registered as UNESCO world heritage sites. As one of the unforgettable spots of this civilization, the city of Sibiu (Hermannstadt), founded by Saxons, was elected European capital of culture in 2007.

You will also discover the villages perched on the trays of the Carpathian Mountains which have kept until our days a pastoral life in perfect harmony with the wild nature of the surroundings. This walk & drive tour will give you the possibility to have a vision of the whole Transylvania and to truly discover this fascinating world during the hikes.
